Please read the instructions in this manual to your children.

Not suitable for children under 3 years due to small size of some components.

Congratulations on your purchase of the Yamaha PortaSound. You now own a portable keyboard that packs advanced functions and great sound in a highly compact size.

Read this Owner's Manual carefully while playing your new PortaSound in order to take full advantage of its various features.

• First of all, let's listen to the preset songs. Refer to "Let's listen and play!" on the reverse side.

PLEASE READ CAREFULLY BEFORE PROCEEDING

* Please keep these precautions in a safe place for future reference.

Always follow the basic precautions listed below to avoid the possibility of serious injury or even death from electrical shock, short-circuiting, damages, fire or other hazards. These precautions include, but are not limited to, the following:

- Do not open the instrument or attempt to disassemble the internal parts or modify them in any way. The instrument contains no userserviceable parts. If it should appear to be malfunctioning, discontinue use immediately and have it inspected by qualified Yamaha
- Do not expose the instrument to rain, use it near water or in damp or wet conditions, or place containers on it containing liquids which might spill into any openings
- If the AC adaptor cord or plug becomes frayed or damaged, or if there is a sudden loss of sound during use of the instrument, or if any unusual smells or smoke should appear to be caused by it, immediately turn off the power switch, disconnect the adaptor plug from the outlet, and have the instrument inspected by qualified Yamaha service personnel.
- Use the specified adaptor (PA-3B or an equivalent recommended by Yamaha) only. Using the wrong adaptor can result in damage to the instrument or overheating
- · Before cleaning the instrument, always remove the electric plug from the outlet. Never insert or remove an electric plug with wet
- Check the electric plug periodically and remove any dirt or dust which may have accumulated on it.

L CAUTION

Always follow the basic precautions listed below to avoid the possibility of physical injury to you or others, or damage to the instrument or other property. These precautions include, but are not limited to, the following:

- Do not place the AC adaptor cord near heat sources such as heaters or radiators, and do not excessively bend or otherwise damage the cord, place heavy objects on it, or place it in a position where anyone could walk on, trip over, or roll anything over it.
- When removing the electric plug from the instrument or an outlet, always hold the plug itself and not the cord.
- Do not connect the instrument to an electrical outlet using a multiple-connector. Doing so can result in lower sound quality, or possibly cause overheating in the outlet.
- Unplug the AC power adaptor when not using the instrument, or during electrical storms.
- · Always make sure all batteries are inserted in conformity with the +/- polarity markings. Failure to do so might result in overheating,
- Always replace all batteries at the same time. Do not use new batteries together with old ones. Also, do not mix battery types, such as alkaline batteries with manganese batteries, or batteries from different makers, or different types of batteries from the same maker, since this can cause overheating, fire, or battery fluid leakage.
- Do not dispose of batteries in fire.
- Do not attempt to recharge batteries that are not intended to be charged.
- If the instrument is not to be in use for a long time, remove the batteries from it, in order to prevent possible fluid leakage from the
- · Keep batteries away from children.
- · Before connecting the instrument to other electronic components, turn off the power for all components. Before turning the power on or off for all components, set all volume levels to minimum.
- Do not expose the instrument to excessive dust or vibrations, or extreme cold or heat (such as in direct sunlight, near a heater, or in a car during the day) to prevent the possibility of panel disfiguration or damage to the internal components.
- Do not use the instrument near other electrical products such as televisions, radios, or speakers, since this might cause interference which can affect proper operation of the other products.
- Do not place the instrument in an unstable position where it might accidentally fall over.
- Before moving the instrument, remove all connected adaptor and other cables.
- · When cleaning the instrument, use a soft, dry cloth. Do not use paint thinners, solvents, cleaning fluids, or chemical-impregnated wiping cloths. Also, do not place vinyl or plastic objects on the instrument, since this might discolor the panel or keyboard.
- Do not rest your weight on, or place heavy objects on the instrument, and do not use excessive force on the buttons, switches or
- Do not operate the instrument for a long period of time at a high or uncomfortable volume level, since this can cause permanent hearing loss. If you experience any hearing loss or ringing in the ears, consult a physician.

Yamaha cannot be held responsible for damage caused by improper use or modifications to the instrument, or data that is lost or destroyed.

Always turn the power off when the instrument is not in use.

Make sure to discard used batteries according to local regulations.

Trouble Shooting

Problem

When the STAND BY—ON switch is turned ON you hear a "buzz" sound.	This is a result of electricity flowing through the instrument. It is not a problem at all.
 The sound is distorted when the keyboard is played, and suddenly the fanfare plays. Playback of Song or Performance is distorted, the playback suddenly stops and the fanfare plays. 	Battery power is low. Replace all four batteries with a new set of batteries.
There is no sound when you play on the keyboard.	You are playing 5 or more keys at one time. You can only play a maximum of 4 keys at one time.
The panel buttons do not function properly.	If a key on the keyboard is held down at the same time you are pressing a button the button may not operate properly.

Have fun with the "Pig's Song"

You can find "The Pig's Song", "The Dog's Song", "The Cat's Song", and "The Cow's Song" in the Variation Instrument's Phrase and Funny. Select a sound and try playing it on the keyboard. What did that sound like? Did it sound really funny? You can't play a melody with this sound but it sure is funny isn't it?

Try to select and play some of the other fun sounds like "Police Car", "Ambulance", etc.

When you find the sound you want to play, first press the ① ~ ③ button the number of times shown in the list, and then if necessary press the **v** button the number of times shown in the list.

When the PSS-14 is switched "ON", the first instrument in the 1 list (PI-ANO) will be selected. To slect another voice from the 1 list just after the PSS-14 is switched "ON", subtract 1 from the times required to select a voice.

•Power

Your PSS-14 will run either from batteries or an optional AC adaptor.

Using AC Power

Using the PA-3B optional adaptor.

- ① Connect the AC adaptor's DC plug to the DC Inlet Jack located on the rear panel
- 2 Connect the AC Plug to any convenient AC wall socket * The AC adaptor is not a toy.

CAUTION!

If you use an AC adaptor, make sure you only use the PA-3B adaptor (optional). The use of any other adaptor may result in damage, overheating or fire. In such a case, the warranty will be void so please use cau-

ganese or alkaline batteries. Make sure the batteries are inserted

1 Turn the PSS-14 upside-down, and remove the battery compartment cover.

in the same manner as shown in the illustration.

+ -9- -DC IN 10-12V

the four batteries in step 2. CAUTION!

It is highly recommended that you change worn batteries as soon as possible. As battery power weakens, the volume will decrease and sound quality will also degrade. When this occurs pay attention to the following cautions and change the batteries.

- Be sure to follow the battery +/- polarity indications on the case when inserting the batteries. Improper installation of batteries may result in overheating, fire, and battery leakage.
- · Replace ALL batteries at the same time. Never mix new and old batteries. Also, don't mix battery types (alkaline and manganese, different makers, or different types by the same maker). Mixing batteries may result in overheating, fire, and battery leakage.
- · To prevent possible damage due to battery leakage, and to save battery power, remove the batteries if the instrument is not to be used for an extended period of time.

• Even if batteries are installed, the keyboard will automatically switch to AC power when the AC adaptor is connected to AC current.

Using Headphones

When you want to practice quietly by yourself or, play at night, connect a pair of headphones to the headphone jack located on the rear panel. When headphones are connected the sound from the internal speaker will automatically be switched off.

If you use headphones, do not play at a loud volume so as to damage your hearing.

For products purchased in the United Kingdom:

If you experience any problems with your keyboard, please contact your supplying Dealer.

Limited Warranty (FOR the U.S.A. only)

Model

Yamaha Corporation of America, hereafter referred to as Yamaha, warrants to the original consumer of a product included in the

categories listed below, that the product will be free of defects in materials and/or workmanship for the periods indicated. This warranty is applicable to all models included in the following series of products:

PSS SERIES OF PORTASOUND ELECTRONIC KEYBOARDS

If during the first 90 days that immediately follows the purchase date, your new Yamaha product covered by this warranty is found to have a defect in material and/or workmanship, Yamaha and/or its authorized representative will repair such defect without charge for

If parts should be required after this 90 day period but within the one year period that immediately follows the purchase date, Yamaha will, subject to the terms of this warranty, supply these parts without charge. However, charges for labor, and/or any miscellaneous expenses incurred are the consumers responsibility. Yamaha reserves the right to utilize reconditioned parts in repairing these products and/or to use reconditioned units as warranty replacements

THIS WARRANTY IS THE ONLY EXPRESS WARRANTY WHICH YAMAHA MAKES IN CONNECTION WITH THESE PRODUCTS. ANY IMPLIED WARRANTY APPLICABLE TO THE PRODUCT, INCLUDING THE WAR-RANTY OF MERCHANTABILITY IS LIMITED TO THE DURATION OF THE EXPRESS WARRANTY. YAMAHA EXCLUDES AND SHALL NOT BE LIABLE IN ANY EVENT FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES

Some states do not allow limitations that relate to implied warranties and/or the exclusion of incidental or consequential damages

Therefore, these limitations and exclusions may not apply to you. This warranty gives you specific legal rights. You may also have other rights which vary from state to state

CONSUMERS RESPONSIBILITIES

If warranty service should be required, it is necessary that the consumer assume certain responsibilities:

- 1. Contact the Customer Service Department of the retailer selling the product, or any retail outlet authorized by Yamaha to sell the
- 2. Deliver the unit to be serviced under warranty to: the retailer selling the product, an authorized service center, or to Yamaha with an explanation of the problem. Please be prepared to provide proof purchase date (sales receipt, credit card copy, etc.) when requesting service and/or parts under warranty Shipping and/or insurance costs are the consumers responsibility.* Units shipped for service should be packed securely.

*Repaired units will be returned PREPAID if warranty service is required within the first 90 days IMPORTANT: Do NOT ship anything to ANY location without prior authorization. A Return Authorization (RA) will be

is sued that has a tracking number assigned that will expedite the servicing of your unit and provide a tracking system if needed.. Using Batteries

Fun Fun GUIDE

★The VOLUME [UP], [DOWN] buttons

Press the VOLUME [UP] button, the "PON" sound you hear will be a little louder. Press the VOLUME [DOWN] button, the "PON" sound you hear will be a little softer.

- If you press the [UP] or [DOWN] button and you don't hear "PON", the sound level is at its highest or lowest setting and cannot be adjusted further.
- Simultaneously press the [UP] and [DOWN] buttons to set the volume level to its maximum setting.
- The volume is set to its maximum setting STAND BY—ON switch is set to "ON".

★The STAND BY — ON switch.

Slide the STAND BY—ON switch to the "ON" position and you will be greeted with a fanfare and can play PSS-14. Slide the switch to the "STAND BY" position to turn the PSS-14 off. • If you leave the switch "ON"

If the switch is left "ON", the PSS-14 will sound an alert. Make sure you slide the switch to the "STAND BY" so that you don't waste battery power. If the switch is still left "ON", and the keyboard is not touched for a period of 10 minutes, a confirmation alert will sound. If the keyboard is still not touched, the alert will sound every 10 minutes.

Let's listen and play!

Inside the PSS-14, there are 10 songs. First, let's listen to the second song in the SONGS list, "Mickey Mouse March", and then try playing along with it.

1 Start "Mickey Mouse March".

Press the blue [SONGS] button two times.

You know this song very well. It's "Mickey Mouse March"

Press the red [STOP] button, and "Mickey Mouse March" will stop.

Next, let's try to play along with the song.

2 Try playing along with the song.

If you are ready, try playing along with the song on the keyboard. The melody disappears and you can hear the notes you play.

Try playing the melody to "Mickey Mouse March" karaoke style.

How did you do? If it was too hard to play, try playing it at a slower tempo (the song's speed).

One, two, three, four!". Try starting the song like this.

two, three, four".

TEMPO

STOP SLOW TAP FAST

. . . .

Is this an easier tempo to play along with? You can also use the TEMPO [SLOW], [FAST] buttons to adjust the tempo.

Press the red [STOP] button to stop the song.

Tap the [TAP] button four times like this. "One,

Did the song play at the speed you tapped?

If you think it's a little too fast, press the [SLOW] button. You will hear a "PON", and the tempo will slow down a little.

If you think it's a little too slow, press the [FAST] button. You will hear a "PON", and the tempo will speed up a little.

When you press the blue [SONGS] button, the first song in the song list, "Wannabe" will start. The next time

you press it, the second song "Mickey Mouse March",

After the tenth song in the list, "Over the Rainbow", the next song to be selected will be the first song in the list "Wannabe".

₹ NOTE

starts, and so on

• To start playback from the beginning of the selected song, press the red [STOP] button to stop playback, then press the [SONGS] button to start playback of the song from the beginning.

Try playing the song "Gallant Pig" with a pig's voice.

Choose the seventh song in the song list "Gallant Pig". Next, choose "Pig" from the instruments list. What do you think will happen?

Doesn't that sound funny? It sounds like a pig is singing "Gallant Pig". Try to play the melody yourself.

Try the same thing using other animal voices like "Cat", "Dog" or "Cow" for the melody.

₹ NOTE

- If the keyboard is not played for one measure, the PSS-14 will play the melody again.
- When you press the [SONGS] button to select a song, the PSS-14 will automatically select an instrument that matches the song for you to play on the keyboard.

♥■NOTE

- If the song is in 3/4 time, tap the [TAP] button 3 times. • If you tap the [TAP] button while the song is playing, the
- song's tempo will adjust to the same speed that you tapped. • If you tap the [TAP] button too slowly, the tap function will not operate. If you tap the [TAP] button too fast, the

tempo will be set to 240 beats per minute.

♥■NOTE

- The tempo can be adjusted between J = 40-240.
- If you press the [SLOW] or [FAST] button and you don't hear a "PON", the tempo is at its highest or lowest setting
- and cannot be set any faster or slower. Simultaneously press the [SLOW], [FAST] buttons to return the tempo to its original setting.

Start "Für Elise" BANDS 3

Try playing in the band.

If you press the blue [BANDS 2] button three times, the third song, "Für Elise", in the BANDS 2 list will start playing.

and BANDS 3 has some fun pieces to play along with.

a five-piece band (COMBO), play along with the band.

Press the red [STOP] button, and the band stops playing.

Become a band member (piano/electric guitar, etc.)

Every time you press the 1 button, a different instrument plays. Use your ear to find the piano sound, which is the first instrument in the yellow 1 list (COMBO).

Are you feeling like a pianist? See if you can play alona with the melody.

Try pressing the yellow 1 button.

What kind of instrument do you hear?

Press the yellow 1 button and the sound you just played on the keyboard (PIANO) will change to E GUITAR, the second instrument in the yellow

Are you feeling like a guitarist? See if you can play along.

Press the 1 button again and try playing the SAXOPHONE, E BASS, or PERCUSSION parts in the

"One, two, three!" Start the band!

Press the red [STOP] button to stop the band.

Tap the [TAP] button three times like this. "One,

Did the band start playing at the speed you tapped?
